**Note: All Herbicide, pesticide, fungicide IBC must be triple rinsed before collection**

Pallet Material*	Number of IBC's**	Contents / Filling Description
*wooden pallet not accepted		

### The shipper declares that the IBCs meet the following requirements including the triple rinse in red above

1. IBCs are in a re-usable condition and must be UN approved for DG use
2. IBCs are empty (i.e. less than 1% or 10L).
3. IBCs are free from outside contamination.
4. All openings are hermetically closed with original lids, taps & caps. Valve thread is course (buttress)
5. The last filling good is clearly indicated on IBC labels, hazmat identification and dangerous good labelling and above 'Contents Description' details are completed and legible.
6. If the last filling good was toxic, flammable, carcinogenic, mutagenic or excessively hazardous or smelling, the IBCs have been neutralised so as not dangerous to workers.
7. No other products than those indicated have been filled into the IBCs.
8. MSDS are available and will be submitted on request.

If the IBCs do not meet these conditions, VIP is authorised to:

1. Reject pick-up of non-confirming IBCs or return them to the sender at the sender's cost.
2. Charge the emptier for the disposal of product residues or non-reusable IBCs (call 1300 797 326 for current charges).
3. Charge incremental freight expenses for pick-ups where the number collected does not match the number on the collection request.

<p>I agree to these terms and conditions:</p> <p>Signature:.....</p> <p>Date:.....</p>
